Doha, Qatar
Nationality: USA

PROFESSIONAL SUMMARY

Project professional with 8+ years managing complex technical projects and large-scale programs across Qatar. Proven track record in project execution and delivery for multi-million dollar initiatives serving 6,000+ participants. Strong expertise in stakeholder coordination, budget optimization, and operational problem-solving across government, educational, and private sector environments.

Core Competencies: Program Planning & Execution — Stakeholder Management — Budget Optimization — Team Leadership — Technical Project Delivery — Process Optimization — Crisis Management — Client Relationship Building

PROFESSIONAL EXPERIENCE

Gamyra Tech QSTP-LLC, Doha, Qatar

Program Manager & Project Coordinator, January 2025 – Present

- Coordinate 9-month R&D project for Qatar University involving specialized procurement requiring direct action at ministry or customs for approvals
- Manage customs clearance and maintain team morale during technical challenges through team-building and collaborative problem-solving
- Lead procurement strategy, budget allocation, and timeline coordination under tight deadlines
- Oversee specialized procurement requiring governmental approvals and maintain critical vendor relationships
- Represent company during high-level client visits and government delegations, generating new business opportunities
- Conduct project presentations and technical demonstrations to secure approvals and maintain partnerships
- Implement project tracking standards and administrative processes for regulatory compliance using Monday.com

Project Engineer / Project Coordinator, February 2018 – December 2024

- Managed cross-functional teams of 5-10 in coordinating Qatar's largest VR educational initiative serving 3,741+ participants
- Reported outcomes directly to CEO while managing partnerships with major sponsors (Qatar Energy LNG, Qatar Energy, Oryx GTL, Pearl GTL, Dolphin Energy, Al-Khaleej Gas)
- Coordinated launch of Qatar Foundation's first simulator-based road safety program delivering 2,344+ training sessions
- Managed research-based simulator development project securing 4-year maintenance contract and additional orders
- Coordinated final implementation phases of national safety campaign contributing to 10,000+ participant success
- Implemented comprehensive project tracking systems using Monday.com for performance monitoring and reporting

KEY PROJECTS

Magic Carpet VR Educational Program

- Managed cross-functional team of 5-10 coordinating Qatar's largest VR initiative
- Oversaw partnerships with 6 major energy sponsors and delivered to 3,741+ participants
- Achieved 83.5% of annual targets through high-impact event at Qatar Toy Festival
- Reported outcomes directly to CEO and implemented Monday.com tracking systems

QF Driving Club Road Safety Program

- Coordinated program launch involving Qatar Foundation leadership and 15+ schools
- Delivered 2,344+ individual training sessions through mobile deployment model
- Restructured delivery during COVID-19 disruptions and resolved stakeholder conflicts
- Maintained relationships with Newton School network partnerships

Motorbike and E-scooter R&D Simulator

- Coordinated 9-month R&D project for Qatar University involving governmental approvals
- Managed customs clearance for international components and international supplier relationships
- Maintained team morale during technical challenges through strategic interventions

PROCESS OPTIMIZATION & COST MANAGEMENT

- Achieved 63% operational cost savings through vendor negotiations and logistics optimization - Developed standardized Monday.com procedures for outreach, tracking, scheduling, and monitoring - Optimized transportation processes through collaboration with technical teams and vendor coordination - Built strategic vendor relationships achieving priority scheduling and flexible terms

BUSINESS DEVELOPMENT & INDUSTRY ENGAGEMENT

- Completed Skalata Ventures accelerator program in Melbourne, contributing to 51 strategic deliverables - Represented company at international conferences (Web Summit, WISE, Milipol, QSTP AI Week) in Qatar, Australia, Oman, Switzerland - Coordinated Qatar National Library exhibition during 2022 FIFA World Cup - Participated in Carnegie Mellon University case study addressing key industry questions

TRAINING & TECHNICAL SUPPORT

- Developed training programs for Qatar University researchers on simulator operations and scenario development - Created maintenance schedules, troubleshooting guides, and technical documentation for driving simulators - Trained internal teams on technical support procedures, equipment assembly, and event coordination - Supported research-based simulator development with training and troubleshooting

EARLY EXPERIENCE

Development Engineer Intern Gamyra, Doha, Qatar (*June - August 2017*) - Led development of 35km virtual road environment using simulation software - Independently learned scripting languages and asset integration techniques - Supported commissioning and testing of 4 driving simulators for client projects - Received company bonus and recognition for project delivery excellence

EDUCATION

Bachelor of Mechanical Engineering American University of Sharjah, Sharjah, UAE (*December 2017*)

TECHNICAL SKILLS

Project Management	Program Planning • Multi-Project Coordination • Risk Assessment • Stakeholder Management • Team Leadership
Technical Expertise	System Integration • Equipment Procurement • R&D Project Support • Performance Testing • Maintenance Planning
Tools & Platforms	Monday.com • Microsoft Office Suite • Agile Methodologies

CERTIFICATIONS

FE (Fundamentals of Engineering) Certified, lifetime certification (2017) • Agile Project Management & Agile Delivery (2019) • Advanced Monday.com Project Management Platform (2020-2025) • 'Ideal Student' Achievement, American University of Sharjah (2015)

KEY ACHIEVEMENTS

- Delivered programs serving 6,000+ participants across multiple years, coordinating 50+ venue partnerships - Achieved 63% operational cost savings through strategic vendor negotiations and process optimization - Managed cross-functional teams of 5-10 personnel and reported outcomes directly to CEO - Led crisis management restructuring program delivery during COVID-19 disruptions - Built relationships across government entities, educational institutions, and private sector sponsors - Secured 4-year maintenance contracts and multi-million dollar project partnerships
